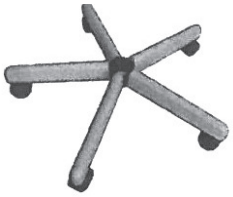
SewComfort Chair

Assembly Instructions

Your SewComfort Chair Includes:



Base with casters

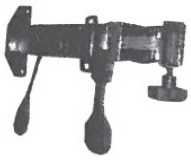
Rail cover

Footrest

Piston and piston cover

Seat

Seat back



Seat metal bracket framework

Seat bracket framework screws

Lumbar height peg-stop

You will need:

Phillips screwdriver and small hammer or mallet

Pneumatic Operation Instruction

You may lock the chair at any height by releasing the control lever at the exact position you wish to maintain the chair.

While seated on the chair, pull the control lever up. The seat will lower.

Leaving the chair and taking all body weight off, pull the lever up. The seat will lift up.

Base Assembly

Lay out your pieces for the base as shown.

Insert the rail cover piece in the center of the base, making sure that it's positioned all the way down.

Next, position the footrest, making sure that the holes in the footrest are facing down.

Assembling the Chair Seat to the Base

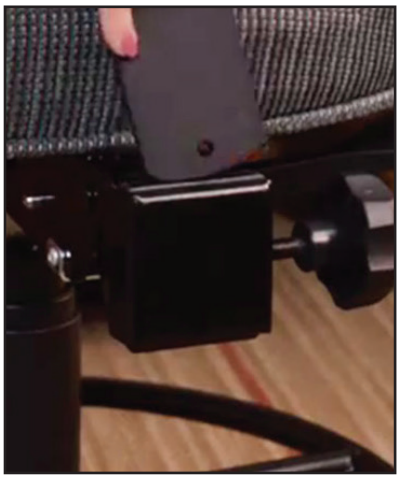
Insert the piston in the center of the footrest, ***remove the yellow protective cap***, then slide the piston covers over the top of the piston as shown.

Next, locate the 4 screw holes on the bottom of the chair seat. Line up the metal bracket with the holes on the bottom of the seat and attach the screws.

Tighten the chair controls with a screwdriver.

Insuring the yellow cap has been removed from the piston, place the seat on the piston. Make sure it's all the way down.

Seat Back Assembly



Install the seat back next. The seat back slides easily into the slot located on the back of the chair.

Gently hammer the peg into the bar located at the back of the seat. Then tighten the seat back height adjustment knob and adjust the chair so that it is at a comfortable height for you.

The Koala SewComfort Chair can be adjusted to fit all 3 Koala Cabinet heights. For higher seat adjustments you may want to raise the footrest height as shown.

The knob located under the seat back is for adjusting your lumbar support.

CRAFTED | WITH PRIDE

Koala Studios are assembled in our Midwest facility with the utmost in craftsmanship and quality. Every detail of your Koala Studio – from the environmentally-friendly, highest-grade engineered wood base to the steel components and decorative handles – were chosen with quality, elegance and luxury in mind.
